Barrett Says That Publicist Predicted "Visibility"

During October. New York, Aug. 23 (A.P.).—John Barrett, former director general of the Pan-American Union, today issued a statement in which he said Col. George Harvey a few days before his death expressed the opinion that Herbert Hoover would be elected President in November.

November.

"Very briefly summarized, his interpretation of the political outlook," Mr. Barrett said, "was as follows: There would be all kinds of 'ballyhoo' and a 'flood of propaganda' by both parties, with the general situation and outlook 'befogged, mixed and hazy' until about the middle of October.

"Then 'visibility' of the final outcome would develop and disclose a 'national ground swell or rolling up' of Hoover sentiment that, in his judgment, would give Hoover and Curtis a greater majority in the Electoral College than even had Coolidge and Dawes."

Varying Comment by Leaders Impossible for Democrats to Keep Their Promises, Asserts Senator.

Rocky Point, R. I., Aug. 23 (A.P.) .-Senator Curtis, the Republican vice or Carter Glass and Gov. Harry Flood presidential nominee, charged in a Byrd-issued statements tonight, de- speech here today that the Democrats cribing Gov. Smith's State control were "trying to fool the people" on the ohibition proposals as impossible of prohibition proposal of Gov Smith, schievement but asserting that the Democratic presidential nominee Dequestion was not an issue in the presi- parting from a prepared address Sena-

achievement but asserting that the question was not an issue in the presidential campaign. Both men expressed in definite terms their faith in the party nominee.

Senator Glass, who had much to do with the building of his party's platform at the Houston convention, said: "Prohibition is not a real issue at the election. It has no proper place in a presidential campaign. The Democratic national convention at Houston expressly declined to make it an issue beyond the inevitable declaration for the enforcement of constitutional and statutory law. It is not a party question."

Senator Glass praised the New York Governor highly for his ability, frankness, honesty and sincerity, and said: "The acceptance address reflects his devotion to Democratic principles and his determination, if elected, to apply those principles in the solution of important public questions."

"The Democratic party has a candidate who is honest, clean and capable, who is better trained for the highest executive position in the land than many recent Presidents have been, and yet Democratis in this Democratic State are asked to refuse him their support and to place Virginia in the Republican column," Gov. Byrd said. "Why? The answer is that he is a wet, that he is a Catholic and that he is a Tammany man.

"No Tammany scandal or any other scandal has ever touched Gov. Smith. He is the most independent national leader in this country."

Regarding religious prejudice against. Smith, the Virginia Governor said:

"If a Catholic is not fit to hold office, then he is not fit to hold office, then he is not fit to ofhold office, then he is not fit to hold office, then he is not

And the state of the state of the specific and the specific an caused shudders to run up and down the spines of the Eastern Republican leaders. They hot-footed it to Washington early in the campaign to be-seech the Republican candidate to give them some language on prohibition in his acceptance speech that could be made an appeal to the Eastern wets.

They were satisfied with what he said at Palo Alto. One prominent wet immediately interpreted it, in fact, as a promise that there would be a factfulding investigation and a subsequent liberalization of the prohibition laws. There were neutral observers who interpreted it as an effort to draw the Democratic candidate out or to put him in the hole, if possible, on the nullification charge.

Well, the governor may or may not have been drawn out. He "went all the way," so to speak, on prohibition and the general disposition in these parts today is to admit that the issue is clearly drawn.

After spending the night here, Gov. Smith tomorrow will go to Sea Girt, N. J., where he will take part in a Democratic rally Saturday and also review the State's National Guard encamped there. Next week he will pay his annual visit to the New York State fair at Syracuse. Dry Issue Clearly Drawn.

#### M'Bride Sees Nothing New In Smith Dry Law Reform

(Associated Press.)

(Associated Press.)

The prohibition reform proposals of Gov. Smith, enunciated in his acceptance speech, were described yesterday by F. Scott McBride, general superintendent of the Antisaloon League, as offering "no possible hope of eliminating the drink habit or the liquor traffic."

McBride declared the Smith proposal to permit State regulation of alcoholic beverages would "restore the old-time liquor traffic" and he said it "would be criminally objectionable to thus force drink into the homes where it would be a constant temptation to children and young people."

The Antisaloon League head said there was nothing new in the Smith piah, adding that he had, "simply accepted and become the advocate of the program of the Association Against the Prohibition Amendment."

Judge Wilkerson assailed the Federal men for their tactics and asked eral men for their tactics and asked what justification they had in making the raids and the arrests if they had not seen any offense committed. Receiving no answer, the judge said:
"It certainly would be a great help to the court if agents would go through the simple ceremony of procuring warrants when they desire to make arrests."

The raid Tuesday was made on offices of Paul Morton, who advertised
his firm as a construction company.
Eight men were arrested and one,
Merle Adams, was shot and seriously
wounded by one of the agents when,
he said, Adams tried to escape.
Thirteen other defendants, accused
of affiliation with the alleged syndicate operating out of the offices raided,
were arraigned today and held to the

The authorities are attempting to locate a man who rushed into the Alexandria Hospital a few moments after the shooting and told a nurse a negress had been wounded a block from the hospital. In leaving the hospital, the hospital, in leaving the hospital, the nurse said, the man went in the direction of the fatal shooting. The police regard the action of the man as strange and are anxious to question him. A detailed description was furnished by the nurse, who declared she could identify th. man if she saw him again.

In addition to these prizes the fair officials will give prizes to winners in all classes. Representative Frederick N. Zihiman will present the prizes. The Judges will be Dr. William T. Pratt, health officer of Montgomery County; Dr. Jacob Bird, of the Montgomery County; Dr. Jacob Bird, of the Montgomery County General Hospital at Sandy Spring, and Dr. Knox. State health officer of Maryland, who will bring three other physicians and three nurses to conduct examinations of the bables.
The first a preper races in Montgomery County will begin today at 2 p. m., when there will be an elimination race of 150 yards, in which 32 of the little dogs are entered.
Finals in whippet race will be run tomorrow at the same hour as today, and the same distance will be run by the dogs that are selected from the elimination race. Included in the races tomorrow will be the Diamond Jubilee Handicap, the first whippet handicap ever run in Maryland.

The running races yesterday at the fair attracted great crowds. The second, third and fifth races created intense excitement in the g indstand and along the fences.

IGNORANCE PLEA FAILS

Brought into court by his bondsman after he had ferfeited \$500 band by failing to appear for trial, a trip to the prisoners' cell room at Police Court, a ride in the Black Maria to the District Jail and then freedom again was the experience yesterday of Philander C. Knox, jr., son of the former senator and Secretary of State.

Scretary of State.

Knox was brought in by his bondsman yesterday in Traffic Court. He had left the courtroom Wednesday before his name was called in a reckless driving case, and Judge John P. Mc-Mahon ordered his bond forfeited. Knox wa found at his country home at Wild Rose Shore, near Annapolis. Id., Wednesday night by George Noble, colored, agent for Milton Kronheim, professional bondsman who had made ba for the young man.

bondsman who had made ba. for the young man.

Noble stayed with Knox all night and yesterday morning brought him to Kronhelm's office near Police Court, where he conferred with Morris T. Wampler, his attorney, before being taken to court.

Wampler told Judge McMahon that Knox had beer ill for several days and that "with ... o one to advise him and in absolute ignorance of court procedure he attempted to speak to your honor and tell you that fee was too ill to stay but was unable to do so. He had no intention of treating his bond with contempt or of evading t. law. "Older men than he have been known to walk out of this court and out of the Supreme Court because they did not understand procedure. I am reminded of a Cincinnati paper manufacturer who walked from the Supreme Court through ignorance not so long ago. I ask your honor to set aside this forfeiture and to set a new bond. I personally will undertake to see that personally will undertake to see that this man appears when his case is

bondsman if he was surrendering the prisoner. "Yes, sir," the bondsman re-sponded with emphasis.

"This case is not like the case you refer to. Mr. Wampler." the judge said.

Knox is refer to, Mr. Wampler." the judge said.
"This man was taken into custody after he had forfeited \$40 collateral and again was released on \$500 bond. He must have known that his bond would be forfeited if he failed to appear and that he was supposed to remain in court. You will have to get \$1,000 bond now."

At this point, Patrick Haltigan, court clerk, reminded the judge that a second charge of passive a strait of colors.

Fatchez, Miss., Aug. 23 (A.P.).—A mobor of 40 or 50 armed men early today stormed the Adams County Jall in search of John Burke, negro, charged with attacking a 60-year-old white woman at Pine R dge near here, but failed to find the man. The alleged leader, Cecil Collins, was arrested.

While awaiting the filing of a formal charge against Collins, Deputy Sheriff Clarence Roberts, who placed him under arrest, announced that warrants were expected to be sworn out against others believed to have taken part in the attack on the jail.

The men, armed with shotguns and pistols, entered the jail, as officers were quickly assembled to repel the attack, but the excitement in evidence here since Burke was arrested subsided when the mob leaders discovered Burke had been spirited away to another jail. Guards were maintained about the jail following the attack to prevent possible further trouble.

Federal Officials Say Kosher Trust Takes \$18,500,000 From Public Annually.

GIANT TRUST IS PLANNED

New York, Aug. 23 (A.P.).—A tribute of \$18,500,000 a year is levied against consumers of Kosher poultry in the New York area by the so-called poultry trust, Federal officials asserted today. Seventy-one men will be arraigned before Judge Julian Mack tomorrow on nformation filed by the Government harging criminal violation of the charging criminal narging criminal violation of the herman antitrust act. Government gents characterize the trust as a gi-antic conspiracy to mulct the public y means of price-fixing, restraint of rade, threats, violence and intimida-tion directed against dealers who re-use to follow the bidding of the trust. The Government charges that as a tion directed against dealers who refuse to follow the bidding of the trust. The Government charges that as a result of the trust's machinations consumers have been forced to pay an overcharge of from 7 to 10 cents a pound on spring chicken and in addition dealers have been forced to pay from 1 to 1½ cents a pound on all poultry sold to pay gangsters employed by the trust to compel dealers to deal only with specified wholesalers.

Of the 4.176.000 pounds of live poultry which come into New York every week, 3.758.400 pounds are intended for the use of orthodox Jews, and Federal officials declared the greater part of this is subject to the impositions of the trust.

Independent dealers have been given the protection of Pederal agents as a result of the bombing in Brooklyn Sunday of the home of an independent dealer, who had supplied the authorities with valuable information. David Hirshorn, president of the Greater New York poultry dealers chamber of commerce, is being held without ball as a suspect in the bombing.

Policeman's Memory for Faces Brings Capture of Michigan Fugitive.

Buffalo, Aug. 23 (A.P.) .- Michael Kilarney, the last of the 28 convicts who shot their way to liberty from a cell block in the Michigan State Reformatory at Ionia, Mich., August 28, 1926, to remain uncaptured, is in custody here. head of the police Bertillon bureau here, for remembering faces resulted in

Killarney's capture.

With two other men he was arrested in Buffalo Sunlay for driving while intoxicated and was fined in city court. His evasive answers to questions led detectives to bring him to the police headquarters for scanning by riembers of the detective force. No one could itentify him at the time.

Whitwell, who was present, left carrying the impression that he had seen Killarney's face before. He checked up his records and found he was wanted for the prison break. Meanwhile Killarney had been released. He told detectives that he intended to return to his home at Sea Breeze, N. Y.

Detectives went to Sea Breeze, found Killarney and brought him back. Confronted with identification records, he is said to have admitted he was the wanted man.

## It isn't always true that "oil won't mix with water"

## It is always true that won't mix with water

Probably as long as you can remember you've heard that "Oil won't mix with water"-- and accepted it as the truth. But it's not entirely true! Some motor oils readily form an emulsion with water--and the lubricant becomes a curdled mass of sludge. And right then and there it ceases to be a lubricant and becomes a source of danger to your motor.

But change that old saying by adding a couple of words! Make it read--"AMOCO Motor Oil won't mix with water" -- and then it's a fact! No matter how much water accumulates in your crank case-due to condensation or atmospheric moisture-lubricating qualities of AMOCO Motor Oil will not be impaired. That's one more reason to mark up in your memory why you should be using AMOCO Motor Oil!

#### DON'T FORGET CONGRESS.

The two national committees are expected by the respective parties to work for the control of Congress as well as for the capture of the Presidency. The country will not feel very well if it awakes on the morning after election day to find that it has elected a Republican President and a Democratic Congress, or vice versa. If the two big committees concentrate too much upon the election of Hoover and Smith the successful committee may find to its disgust that it has handed to the victor a Pandora's box, out of which for at least two years will flow nothing but miseries.

If Hoover is to be President, he has a right to expect the election of a Republican Senate and House. All his plans for the public welfare will gang agley if a Democratic Congress is elected, and he will have thrust upon him utterly distasteful measures which he can not veto without disrupting the public service.

If Smith is to be President, the Senate and House should be Democratic also. What could he do against an opposition Congress? His messages would go automatically to the committee on the disposition of useless documents. A Republican protective tariff would be placed before him for his signature. Any treaty made by him would be talked to shreds. His farm relief plan would be stolen by the enemy, and a strange foundling would be placed on his doorstep.

Every stroke that is made in behalf of Hoover should be made in behalf of a Republican Senate and House. The same rule applies to Smith. Neither will be a success in the White House if his party is not in control of Congress. It is difficult enough for a President to get along with his own party, without asking him to get along with the enemy.

The two national committees can do much to avoid the national embarrassment of divided authority in conducting the Government. The people are so excited over the wet and dry question as relating to the fortunes of Hoover and Smith that they may not pay much attention to the candidates for the Senate and House. Many voters intend to vote for the presidential candidate who is opposed to their party. They do not intend to leave their party, but only to do a little independent voting for President. It is a dangerous game. A Democrat who wishes to see his party in power can not afford to vote for Hoover, or fail to vote for Democratic candidates for the Senate and House. No Republican who really believes in his party's policies will vote to place a Democrat in the White House or in Congress.

The wet and dry question is not everything. So far as the Presidency is concerned, it is next to nothing, for neither Hoover nor Smith can do anything but enforce the Volstead act. The most important thing from the standpoint of national welfare is to place one or the other party in absolute control of the Government-White House, Senate and House, Then the party that is given authority can be held responsible.

#### FINE FISHING.

Glacier National Park has become a place where the followers of Izaak Walton may enjoy the pleasures of one of the world's greatest sports. Over 237,000 rainbow trout were planted in the waters of the park up to August 1, and there are to be added 990,000 cutthroat and golden trout from the hatchery, which will be distributed this month. Josephine and Grinnel Lakes received 85,000 of the rainbow trout. These two lakes are within easy reach of the Many Glaciers Hotel, which is on the shore of Lake McDermott, thus insuring comfortable living quarters for anglers. Many c the trout developed from eggs and fry from the hatchery in Yellowstone Lake are sent to Glacier Park waters. The State fish and game commission of Montana has also helped, to a great extent, in supplying fish for Glacier

At various times; all species of trout have been planted for the purpose of determining ployment as compared with the preceding he is a devil with the ladies.

It seems that all the fish thrive well because of the large quantity of natural foods in the waters of the park and because there is very little variance in the temperature of the water: throughout the year.

Fishing in the park may be done with hook and line only, and the Government has put a limit of ten fish a day to each angler, thus insuring against the possibility of rapid depletion of the fish supply.

#### GOV. SMITH AND THE TARIFF.

Gov. Smith's assurance that the Democratic party under his leadership will not seek to destroy the tariff system would have been more satisfactory if he had not indorsed the old and exploded idea of "taking the tariff out of politics" by basing the tariff upon facts ascertained by a nonpartisan fact-finding tariff commission.

Time and experience have shown that the tariff can not be taken out of politics as long as there are political parties. These great teachers have also shown that a "fact-finding nonpartisan tariff commission" is a myth that will never materialize.

So long as a political party is responsible for the conduct of the Government it will insist upon retaining full control of the sources of revenue. It is right in insisting upon linking authority with responsibility. The tariff is inextricably involved with the revenues, the public debt, taxation and national prosperity. These subjects are the essence of politics.

A political party that should delegate to a commission the task of ascertaining tariff rates, instead of fixing them itself through Congress, would be shirking one of its most important duties and might derange the Government's taxation. revenue and debt, besides changing prosperity to adversity. The most that any commission can do is to report a set of figures which a majority of the commission allege to be facts. Congress can not be bound by this report without surrendering one of its chief powers, upon which many other powers depend.

If Gov. Smith should be elected President he would soon discard his idea that the tariff system can be based upon the reports of a commission. As an honest man, holding himself responsible for the conduct of the Government, he would face the music and ask his party to frame a tariff which in its judgment would best serve the interests of the people. This tariff would have to be made in harmony with the party's policies concerning other revenues, such as the income tax, and its policies concerning the payment of the public debt, the reduction of taxation, and the maintenance of prosperity. These are problems that can be handled only by the supreme authority of the party in power-the President and his party having control of Congress. They can not be disposed of by any commission, or by accepting the tariff figures of

any commission. The ascertainment of facts touching particular commodities, with a view of fixing customs duties thereon, is a minor part of the great political task of framing a tariff law. The law represents much more than a schedule of duties. It is a part of the political policy of the party in power. An absolutely perfect tariff from the "fact-finding" standpoint might be utterly ruinous to the country. if not harmonized with the policies of the party in power as they concern other sources of revenue.

The more Gov. Smith studies this subject the more surely he will swing away from the idea of taking the tariff out of politics. The tariff is politics-not partisan chicanery, but politics in the sense of policy vitally affecting the body politic. When the people place a man and a party in the White House and Congress they expect them to control their own policies, and not to turn them over to a commission which is not elected by the people and which is not the people's agent. The agents of the people are the President and Congress. The principle will not permit them to turn the duties of the agency over to third parties, but will hold them strictly responsible.

#### TELEVISION DRAMA.

It is a far cry from the Punch and Judy show and the television puppet play that has had its first demonstration in New York. The imagination is stirred by the account of the performance of the puppets synchronized in movement, sound and sight. Because of the limitations of the transmitter, puppets had to be used to coordinate with the radio, but it is stated that only mechanical difficulties lie in the way of the presentation of an entire play by radio. The combination of sight and sound and natural color has been indicated in the progress of the radio drama, and when this has been successfully achieved nothing will remain for the radio audiences everywhere but to sit in on drama that will be effectively enacted and

staged. The advance of television drama and the linking up of this with true color reproduction will afford a type of mechanical exhibition far in advance of present movies. It is amazing to find that already the movie has maturity and is in process of being superseded.

#### WAGES AND LIVELIHOOD.

It appears from the compilation of facts by the National Industrial Conference Board that easily caught has something the matter with the year 1927 registered little change in em- it." Referred to the college boy who thinks

which are the most adaptable to these waters, year. The stability of wages is the phenomenon by which the prosperity of the period is gauged, and the report remarks that no surprise need be felt over the stability of wages, inasmuch as there was no alteration in the fields of industry which would react upon the general wage levels. The best evidence of the stability of prosperity and the security of wages is that there is discernible no trend to-

ward unemployment. The year 1927 marked advances in the production of raw materials, mail order sales, electrical construction and bank debits to individual accounts. It showed some slight decline in manufactured products and prices with a little falling off in the latter months in factory employment. The balance between these two effects brings the record of industry to a point of settled stability with prosperity unaffected.

The task of getting an accurate index on the cost of living in a country of the size of the United States is almost insuperable. In formation must be obtained by studying selected groups. The question, "What does it cost to live?" is complicated by another: "What does it cost to live in a certain place?" other question is: "What does it cost to live in one period as compared with another?" In the matter of home expenditures one rule has been definitely ascertained, namely, that as the total cost of living increases the share which is spent for food diminishes. Food is an item more readily variable than rent or fuel or clothing. Judged from the material that has been set forth by the Industrial Conference Board, the basis for the high plane of prosperity in the country is solid and unmenaced.

#### GERMAN SCIENTISTS.

Rising above handicaps and assuming their full prewar place in the contributions expected of them by the world, German scientists are ctive in all the departments of pure as well as applied science. The cynical note that had infected German learning prior to the war and the disposition to glorify the German state as the inspiration of science has disappeared German thought is free from the incubus of military ambitions.

German scholars have been able to keep in ouch with their studies without lapse, despite the discouragements to research they have had to overcome. It is men of this class, who hold to the ideals of pure scholarship and who see in science the ladder of civilization rather than the retort for the concocting of Prussian war devices, who are to assemble at Hamburg next month. The program marked out for the congress of German naturalists and physicists ranges through the entire field of the mental and physical sciences, from metaphysics to

This broadly-based gathering will do much oward reorientating German scholarship, to bring it into the respected place it once held with the acquiescence of scholars of other lands. The original German model of American universities has been largely superseded. in these times of applying learning to results, but the thorough German quality of thought and painstaking methods of ascertaining truth are still admired and imitated. All that is earned by German scientific research now becomes a part of the world's wealth. The reports to be made by these indefatigable explorers of nature will be awaited with the keenest interest.

#### FARM REPAIR EXPERTS.

With the passing of the days of home repairs on the farm vanishes one of the stereoyped themes for fictionist and poet. The farmer at his task of mending the snake fence or putting to rights the lean-to or giving a drastic overhauling to the old reaper has been a prolific source of local color, although to the farmer himself these occupations are drab and unmitigated drudgery. Along with these chores will go his wrestling with the newfangled farm machinery, which is often as complicated and as difficult to get right as the works of a clock. The farmer of the future will be strictly a boss, and farm repairs will be handed over to the mechanic skilled in making repairs to farm implements and machinery. He will also make repairs upon ouildings, so that the best results may be ob tained with the strictest economy.

The great farms of the West are no places for amateur tinkerers. A farmer can not be a carpenter and a machinist and an electrician. He must have able helpers and it has been discovered that he can with profit relegate these associated tasks, not intrinsic to the growing of crops, to the farm repair expert The instruction in the new craft will be given on the farms, at least the rounding out of instruction will be there.

Farm shop instruction is a development of the general movement for getting best utilities from the farm and assuring the farmer that his equipment will be at all times in tune for the work that it is expected to do. doubtedly, in time, these new farm "skills" will originate as well as repair and widen the field of inventions useful on farms.

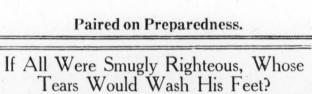

#### COMMUNISTS IN THE EAST.

It is folly to disparage the determined purpose of the Soviet government of Russia to make advances at any weak point in the world, and especially in the East. This is the view of George Bronson Rea, publisher of the Far Eastern Review, Shanghai. This close-up opinion is offered in connection with the situation in Manchuria, where inroads by the Mongols, under Soviet officers, has tended to muddy the waters for the Nationalists over their differences with Japan.

Mr. Rea asserts that the real enemy of both China and Japan in Manchuria is the Soviet. From the time of the principalities of Russia, before their merging in that of Moscow, and after that event, forays of rovers sent out by one or another Russian prince made their way into and took possession of Siberia and carried Russian pretensions to the Amur River. At the same time others were making their way over the Bering Strait to Alaska.

Russia has never been regardful of borders and its habit of penetration was the cause of border concern long before the appearance of the Soviet system. Today that disposition keeps the Russian government in a suspect relation in all that pertains to adjustments of boundaries. Whether a czarist or a communist, the Russian bear is always raiding neighborhood preserves.

Atlantic Coast Airways Use Plan to Entertain Passengers on Ships.

New York, Aug. 23 (A.P.).—The talkies are to be taken for a skyride. The Atlantic Coast Airways corporation announced today that by arrangement with First National pictures movies will be a regular part of the service in its new 25-passenger seaplane which makes its first run between New York and Atlantic City on Sunday.

To inaugurate the service an attempt will be made to entertain the passengers with a sound picture and it was indicated that if the test is successful the talkies may be made a regular adjunct of air travel between the two cities instead of "plain movies."

First National is negotiating with several other passenger air lines with a view to having talkies, or at least movies, become standard entertainment equipment on passenger air liners. tion announced today that by arrange-

## ANNOUNCING the new Radiola Super-Heterodyne

with A.C. electric operation

Everybody has been waiting for it.

And here it is—the first of the new "60" series of RCA Super-Heterodynes with A.C. operation. It looked like an easy problem—to the layman. Super-Heterodyne plus A.C. tubes equals

A. C. Super-Heterodyne. But the engineers at General Electric and Westinghouse and in the RCA Research Laboratories —with all the world's knowledge of radio at their command—took a year to solve it.

Not merely to design a receiver that would be worthy to bear the RCA mark of excellence, but one that would be a step beyond any receiver

The super-selectivity of the famous RCA Super-Heterodyne—recognized as the highest develop-ment of the radio art—is now combined with the unrivalled simplicity and dependability of A.C. electric operation, so successfully used in the nationally popular Radiola 18.

And at a price only possible because of the superior manufacturing resources of the Radio Corporation of America—the world's largest producer of radio instruments.

Radiola 60, first of the new series of RCA Super-Heterodynes, is a table model to be used with any high-quality loudspeaker (RCA Loudspeaker 100 A or the new 103 shown in the illustration).

Cabinet models, with special built-in dynamic loudspeakers of hitherto unachieved tone and range, will be announced shortly.

Any RCA Radiola Dealer will gladly demonstrate the new Radiola 60 for you-in your home.

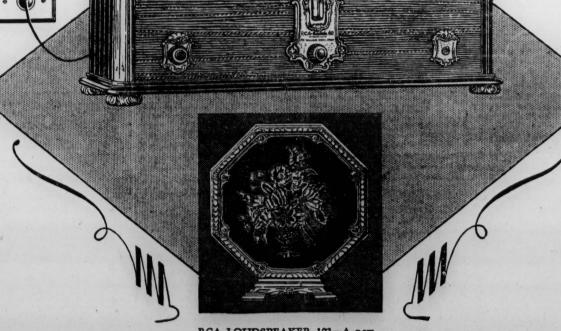

Radiolas may readily be purchased on the RCA Time Payment Plan. RADIO CORPORATION OF AMERICA NEW YORK CHICAGO SAN FRANCISCO

With only occasional minor recessions, such as appeared, for example, during a few months of 1927, business during a few months of 1927, business and industry as a whole remained at a high level for a long period of time," the statement said. "This period has been one of almost unbroker increase in production and consumption, without exhibition any of the characteristics of a business boom. There have been unprecedented amounts of savings and investments of new capital in recent years.

When the cornfields of I-o-wa smash, 'Excess Baggage,' by Jack Mc-ays: Gowan." Whether this comedy-drama of backstage life lives up to its tifle wa or not will be known about a week

from Monday. Some two seasons ago, over on the south side of Pennsylvania avenue. Laurette Taylor, of "Peg o' My Heart" fame, essayed something new for her, a sophisticated drama, "Her Cardboard Lover"—and it so happened that a young English actor, Mr. Leslie Howard, "stole the show," as they say in the theater. In the London revival of this piece (it started Monday), with Senator Bankhead's daughter, Tallulah, as the star, Mr. Howard succeeds in doing the same thing. London is his old home town.

Motors, Coppers and Some Specialties Strong; Steady Selling Sets In.

### SMELTERS AT NEW HIGH

New York, Aug. 31 (A.P.).—Under the leadership of the motors, coppers and some of the specialties today, the stock market gave the appearance of strength that has characterized it in previous sessions this week, but there was steady selling in other parts of the market, and at the close gains and losses were about evenly divided. Sales 2ell off to a little below, the 3.000,000 mark.

sell off to a little below, the 3.000,000 mark.

Scarcity of news was one of the characteristics of the day. The call money rate was renewed at 7 per cent and held there, but there were funds available on the outside at 6½ per cent. The outside concessions stirred such strong hope of a reduction in the official rate that its failure to go lower probably was responsible to a certain extent for a drive against stocks in the last half hour, when it was apparent that no change would come. The drive was effective for a short time, but the lower prices quickly attracted buyers, and a recovery followed.

Apparently no concern was felt by traders about the brokers loan report to be published later in the day or the possibility of a raise in the rediscount rate by the Federal Reserve banks. It developed that brokers loans decreased about \$22,000,000.

developed that brokers' loans decreased about \$22,000,000. In the mixed and irregular trading of the day, 24 new highs and six new lows for the year or longer were established. Among the former were American Smelters, Kennecott Copper. Calumet & Hecla. Granby, Associated Dry Goods, American Linseed, American Express, Drug Incorporated, Purity Bakming common and preferred, Tidewater Oil, Electric Auto Lite, Commercial Investment Trust, Brockway Motors common and preferred, Chrysler, Dodge preferred, Kolster Radio, Certo, Montgomery Ward, Allied Chemical and others. Net gains in this group extended to about 9 points.

General Motors was among the leaders on the up side in the early trading, but interest in the stock abated as the session progressed, and it dropped from a high for the day at 189½ to close at 187½, a fractional net advance. On the other hand, Chrysler was active throughout the session, advancing in the forenoon to a new high at 98%, receding to 96 and closing at 96½, a net gain of 2½ points, in a turnover of 294,500 shares.

net gain of 2½ points, in a turnover of 294,500 shares.

The sharpest advance of any investment issue was that of American Smeiters, which topped its former high by 6 points at 229½ and held all its gains, scoring an advance of 8½ points net. The other members of this group fell in line, attaining substantial advances, but some of them lost part of their gains in the late trading. Greene Cananea came to life with a net advance of 3 points. Aggressive buying in this group undoubtedly was inspired by the sensational rise in American Smeiters, which was attributed in the street to record earnings as the result of more favorable conditions in the copper and other metal industries, and was accompanied by rumors of coming extra distribution to stockholders.

American Express was pushed to a new high price level on reports that its world's banking facilities might be taken over by a leading New York banking institution.

Among the active stocks which closed with outstanding net advances were Burroughs Adding Machine, up 5 points net; Holme, 6%; Mullins, 3¼; Motor Products, 3; National Cash Register A. 2½; Park & Tilford, 2¾; Rossia Insurance, 3¾; Woolworth, 2½; Victor Talking Machine, 1¾; Standard Milling, 4¼; Adams Express, 7, and others. Some of the steel stocks were in demand at advancing prices early, but most of them lost their day's gains in the final hour. Midland Steel Products preferred rose 9½ points net on small dealings.

Trading among the carrier stocks was mixed but rather quiet events in the final hour.

preferred rose 9½ points net on small of dealings.

Trading among the carrier stocks was mixed but rather quiet except in a few individual cases. Delaware & Hudson was boosted for a net advance of 6½ points net and a fairly large turnover. New York Central, Norfolk & Southern, Rutland preferred, Lehigh and Southern Pacific made moderate gains, while many others closed in the minus line by small margins.

The Armour stocks were heavily bought, although price advances were rather small. Cudahy and Wilson lost

rather small. Cudahy and Wilson lost ground. The oils were steady, with price changes of minor importance as a rule. There was good buying among the rubber shares, most of which attained substantial net gains. Continental Can and American Can again were in good demand at advancing prices.

prices.

In the foreign exchange markets a sharp drive against Spanish pesetas sent the quotation off 10 points, whereupon government agents came in with buying orders and railied the unit to the previous level of 16.63. Sterling continued in supply at \$4.85½ for cables, while French and Italian were steady. Swedish exchange was aided by the advance in the bank rate in Sweden and rose ½ to 26.77. Chinese exchanges were lower and the Calcutta rupee dropped 6 points.

Brokers' loans, announced after the close, declined substantially.

Bullard Machine Tool was a strong feature of the industrials, rising 10 points to a new high at 80. Royal Baking Fowder made a 9½-point gain in scattered trading. Midland Steel gained 4½ points on announcement that its output had reached the greatest volume in its history. Columbia Graphophone, Deere, Glen Alden, Ruberold, Apponaug Co, and Norvadel Process preferred were in demand 2 to 4 points higher, the last two a new high for the year.

Bancitaly overcame early weakness and closed more than a point higher. Weak spots included Celanese, Auburn Auto, Consolidated Dairy and Hires Co. A, with declines of 1 and 2 points Checker Cab was sold fractionally lower and Fox Theater A was in supply.

In the chain store group, Melville Shoe made a 4-point gain and Piggly Wiggly advanced more than a point in good demand while Metropolitan 5 and 10 dropped nearly 3 points. Radio shares were in demand fractionally higher.

Olls opened stronger, but liquidation in the afternoon carried some of the group below yesterday's closing levels Vacuum and Humble closed fractionally down after early gains, and Standard of Ohio lost part of a 5-point advance which carried it to a new high at 84%. Reiter Foster rallied fractionally.

In the mine group, Newmont and Norands encountered profit taking, and Phelps Dodge and Consolidated Copper responded but a fraction each to the brisk upturn of coppers on the "big board."

#### Who Knocks at YOUR Door?

HERE is an old saying: "When Poverty comes in at the door, Love flies out of the window."

In this day and age, young men have come to realize that the question of finances is a most important one in contemplating marriage. Sagacious ones have saved some of their earnings and invested them safely, before taking the momentous step, so that when there is a knock on the door, they may feel sure that POVERTY is not the one who is trying to get in.

If they have invested their savings in the First Mortgage Notes through Swartzell, Rheem and Hensey Company, they will be getting a regular check for interest at 6% and be able to laugh at the struggling phantom clamoring to enter.

Will you?

Few Specialty Issues Show Activity; Federal List Improves.

#### RAILS RATHER ERRATIC

New York, Aug. 23 (A.P.).—Buoyant activity of a few specialties gave a firmer tone to the bond market today. Except in the few issues, trading was rather dull and light, maintenance of high money rates, calling of upward of \$20.000,000 in bank loans and expectation of an increase in brokers' loans tending to restrict the activity of the general list.

Announcement that new Treasure Announcement that new Treasur

the general list.

Announcement that new Treasury Manacing was expected, probably soon after Labor Day, attracted some attention to United States Government obligations, which showed the first general improvement in several days.

Trading in Public Service of New Jersey 4½s, which have been advancing steadily this week in sympathy with the rise of the stock on buying encouraged by reports of dividend action, which materialized today, and of merger plans, accounted for a large proportion of the volume of sales. The issue closed only a point higher, however, at 133, substantially below the year's high, established a few days ago. Coppers were in demand, reflecting the strength of copper stocks, with Anaconda 7s leading the advance and closing up more than 3 points net. Dodge Brothers 6s improved fractionally.

Rails were somewhat irregular. St. Paul 5s slumped under profit taking. New York Central-Lake Shore 3½s were pounded down more than 3 points and smaller losses were registered by Erie 5s, Northern Pacific 4s, Union Pacific 4s and a few others. Seaboard Air Line 5s were in demand, advancing more than 2 points.

as and a few others. Seaboard Air Line
5s were in demand, advancing more
than 2 points.

The foreign list was erratic.
Interest of 2 per cent for six months
ended June 30 and payable October 1
was declared today on outstanding adjustment mortgage bonds of the Chicago, Milwaukee, St. Paul & Pacific
Railroad Co.

DITTSBURGH, Aug. 23 (A.P.).—The aspiring Buccaneers themselves aspiring Buccaneers, themselves only five and one-half games from the lead, halted the Giant advance with such effect today that John Joseph McGraw found himself looking up at the Cardinals again tonight, even if the margin was only one percentage polytics. Cardinals again tonight, even if the margin was only one percentage point. After the New Yorkers had brutally assaulted Carmen Hill while he had his glasses on to take the first game by 6 to 3, the Pirates retaliated against four Ginnt hurlers with sufficient vigor to bag the second clash by 13 to 3. This even division cost the Giants two percentage points, and since the Roblins were not on hand to trim St. Louis, dropped the New York entry 1 point below the Red Birds, who were fidle today. The prespect of seeing Giant blood strewn about the premises drew 30,000 fans to Forbes Field, the largest crowd of the local season. The Giants cast gloom over the vast assemblage when they peppered Hill for five runs in the eighth round of the opener to win Larry Benton's twenty-first victory of the season. A home run by Frank O'Doul with one on and a triple by Terry with two on encompassed the fall of Prof. Hill.

Athletics' Star Throws 15 Straight Strikes

PHILAD. LPHIA. Aug. 23 (A.P.).— Bob Grove, southpaw ace of the Athletics' pitching staff, hurled the Mackmen to within four and onehalf games of the league-leading New ork Yankees today by defeating leveland, 3 to 1. Grove had his strikeout ball working great style and clanked the tribe unil the ninth, when Summa scored and with a single to left. Grove

In the second, Grove fanned Mor-gan, Harvel and Autry on nine straight strikes without permitting even a foul.

Continuing in the third stanza, Grove fanned Miller and Hudlin, a record of fifteen strikes, one of which was a foul ball, before he threw a ball wide of the plate to Langford, his next pitch, when he fanned the Indian lead-off man, giving Grove five strikeouts on seventeen pitched balls.

The Mackmen cinched the game in the third, when Bishop doubled, Cochrane walked and both scored after a successful double steal on a wild throw to third by Catcher Autry. Mickey Cochrane batted in a run in the first inning when he ducked a pitch and the ball hit his bat, caroming to left field for a single that scored Bishop from second base.

win.

Although Shortstop Joe Cronin was charged with an error yesterday which figured prominently in the making of the two Chicago runs in the second inning, he contributed two mighty nifty stops. One was his grab and peg of Kamm's hot one ending the first, while he raced over behind second for a one-hand stop and backward toss to Reeves to turn Mostil's near hit into A force out. In the seventh, he made another fine effort at Redfern's expense. Incidentally, he started all of the put-outs in this latter session.

Both managers made changes in their line-up yesterday. Blackburne put Bill Hunnefield back at second in the place of Karl Swanson, while "Red Barnes, who has been out nursing a spike wound, returned to his regular trand at center field for the Nationals.

## OLLYER'S COMMENT On the SPORT of KINGS

H or dogs! Yea, bo; and not only that, but I'll tell the whole cockeyed world, they're still heatin'.

Out at Hawthorne, where the weather man promises us more rain the old wopsey tiger is none other than HARVEY STEDMAN, all primed and cocked for today's mopping. In this respect 1 might also state I know where the commissions are planted. Unless you're solid ivory—from the houlders up—you will have the old two mers riding right smack bang on the old beezer. Ye wekkum. It all happens in the third with FRIGHTFUL and HOLD FAST the contenders. In the opening dash, the boys tell me CLOVER FIELD is a double barrelled good thing, if such a thing can be, when the going is gumbo. GENIE CRIT may go better with RUSTIC MANNERS right close up. FLATTERY should come into her own today. This is her track and she seems to have consistent MIM. Out at Hawthorne, where the weather man

OLD TIMES, from the Hendric Stable, is dropped into a real snug spot and I don't believe 'he issue will even be close. That last race just tightened him up.

him up.

The Saratoga melou is none other than GREAT HOPES—the one thing that keeps us all going, in this game. This is a pretty fair sort of a hide and on figures should be a rather easy winner. And now we come to the devil, PERCENTAGE, which will be at healthy figures today. This big sprinter is at the top of his form and is dropped in under favorable weight. Take this one for the old overcoat then be happy. More anon.

#### PROGRAM UPSET Rain Delays National

HELEN WILLS'

Tourney; Finals on Tuesday.

Postponement of play in the women's national tennis championship today for the second time in two days because of rain threatened to deprive Miss Helen Wills of a chance to try taked the national mixed doubles champions.

Miss Helen Wills of a chance to try to add the national mixed doubles championship to her collection.

In addition to trying for the singles and women's doubles titles here, Miss Wills said this afternoon she has entered the mixed event in the national doubles championships at Boston next week paired with John B. Hawkes, the left-handed Australian star.

As rain continued falling, Miss Wills, in tennis garb on the porch of the West Side Tennis Club, looked out over the sodden courts and decided the chances of playing at Boston are slim. The second straight postponement made it totally impossible to wind up the present tournament by Saturday as scheduled and probably will put off the final until Tuesday. It is on Tuesday that the mixed doubles tourney is to start at the Longwood Cricket Club, Boston.

Only once has Miss Wills succeeded in winning all three of the United States championships open to her. That was in 1924, when she gained the women's doubles title with Mrs. Hazel Hotchkiss Wightman, and the mixed doubles with Vincent Richards, besides win-ning in singles.

ning in singles.

She would very much like to make another clean sweep and may yet attempt to, provided she will have a start in mixed doubles no more than a day behind the field.

The other fifteen players still in the running for the singles crown chafed at the enforced idleness. Many went to New York for amusement, while others settled down to another round of bridge. Yesterday there were hearty protests against the plan of playing both morning and afternoon in an effort to make up for time lost, but today the fair contestants, anxious to have it over with, consented to a "tennis double-header" tomorrow, beginning at 10 o'clock in the morning even though it might mean playing three or even four matches in one day. "I feel strong enough to play several matches a day" said Mise Wills who "I feel strong enough to play several matches a day," said Miss Wills, who

swept through the one opponent she has met in just 22 minutes of play. "But perhaps my place in the draw is not so hard as some of the other players have."

ST. JOES WOULD PLAY. St. Josephs want a game for Sunday with some unlimited aggregation. Any team interested, call Lincoln 10441.

ROSS COUNCIL SEEKS GAME. The Ross Council Junior Order Nine is seeking a game for Sunday with a strong unlimited team. Call Columbia 9333.

The Kelleys won a French's League game yesterday by forfeit over the Cole-man Jennings Nine. The score was 9 to 0.

PETWORTHS BUSY.

Petworth A. C. will play the Bonds Nine Sunday, on the Silver Spring diamond, at 3 o'clock. The manager of the District Firemen is asked to call Minnich at Columbia 8740.

KENNEDYS TO TRAVEL.

Kennedy A. C. Nine journeys to Bowle, Md., Sunday, to play the team of that town at 3 o'clock Randy Shreve is asked to call Manager Otte a) Georgia 407.

#### HELEN WILLS' PROGRAM UPSET

Rain Delays National Tourney; Finals on Tuesday.

Postponement of play in the women's national tennis championship today for the second time in two days because of rain threatened to deprive Miss Helen Wills of a chance to try te add the national mixed doubles championship to her collection.

In addition to trying for the singles and women's doubles titles here. Miss Wills said this afternoon she has entered the mixed event in the national doubles championships at Boston next week paired with John B Hawkes, the left-handed Australian star.

As rain continued falling, Miss Wills, in tennis garb on the porch of the Vest Side Tennis Club, looked out over the sodden courts and decided the chances of playing at Boston are alim. The second straight postponement made it totally impossible to wind up the present tournament by Saturday as scheduled and probably will put off the final until Tuesday it is on Tuesday that the mixed doubles tourney is to start at the Longwood Cricket Club, Boston.

Only once has Miss Wills succeeded in winning all three of the United States championships open to her. That was in 1924, when she gained the women's doubles title with Mrs. Hazel Hotchkiss Wightman, and the mixed doubles with Vincent Richards, besides winning in singles.

ning in singles.

She would very much like to make another clean sweep and may yet attempt to, provided she will have a start in mixed doubles no more than a day behind the field.

The other fifteen players still in the running for the sffigles crown chafed at the enforced idleness. Many went to New York for amusement, while others settled down to another round of bridge Yesterday there were hearty protests against the plan of playing both morning and afternoon in an effort to make up for time lost, but today the fair contestants, anxious to have it over with, consented to a "tennis double-header" tomorrow, beginnin; at 10 o'clock in the morning even though it might mean playing ginning at 10 o'clock in the morning even though it might mean playing three or even four matches in one day. "I feel strong enough to play several matches a day," said Miss Whis, who swept through the one opponent she has met in just 22 minutes of play. "But perhaps my place in the dr.w is not so hard as some of the other players have."

#### Don't Do Without New Tires—Simply Because You Haven't the Cash

Don't pay cash for new Tires; buy United States Tires on credit. No red tape; no delay. Drive to any Royal Tire Store, pay as little as \$1 down, say "Charge 'em." Your auto registration card is all that's needed. Easy weekly payments take care of the balance. And prices are lower on United States Tires, meaning extra money saved. Stores all over the city. tablespoons chopped green peppers tablespoons chopped onions.

2 tablespoons chopped onions,
1, teaspoon salt,
1, teaspoon paprika,
3 tablespoons butter, meited.
Cut off the blossom ends of the tomatoes and, using a spoon, scoop outpart of the insides. Add this tomato
pulp to the rest of the ingredients.
Carefully stuff the tomato cases. Place
side by side in a small pan. Add 1 inch
of water and bake in a moderate oven
for 30 minutes.

WHITE MOUNTAIN CREAM FROSTING.

2 cups sugar.
1 cup vater.
1 cup vater.
1 teaspoon cream of tartar.
2 egg whites, stiffly beaten.
2 teaspoon vanilla.
Mix the sugar, water and cream of tartar. Cook o'er a moderate fire and without stirring, until a thread forms when a portion is slowly poured from a spoon. Remove the pan of boiling syrup from the fire during the test When the syrup "threads," slowly pour into the stiffly beaten egg whites, beating while pouring. Beat until the frosting is very creamy and cold. Add the vanilla and frost the cake.

If frosting thickens before it cools it will harden on the cake. If it hard-ens and is still warm, add two tea-spoons boiling water and beat until cold. If frosting fails to thicken and ie cold, add one-fourth cup sifted pow-dered sugar and heat until the sugar has thoroughly blended.

One of the well-placed castles along the Rhine.

After a stroll about Cologne, I visited the cathedral, which is one of the noted sights of the city. It has a pair of twin spires which rise to a height of 510 feet.

There is a world press exposition in progress at Cologne this summer. In order to reach the grounds, I walked across a bridge which spans the Rhine-In one building I saw two strangely dressed printers at work. They wore green and brown jackets and on their feet were sandals. Each had a pointed cap, above a head of long hair falling down to the chin. If suppose they were wearing wigs.)

The reason for the odd costume was the desire to have the men look like printers of the Middle Ages. The press and the type were also in keeping with old-time models.

At the English exhibit I bought a copy of the day's London Times which had been brought across from England by airplane.

The American exhibit includes s "league of nations" press. This press was built in Switzerland with the help of a German engineer, for an American firm which has sold it to a Spanish newspaper! Five hundred newspapers, of 48 pages each, can be turned out every minute by its speedy rollers. In the Russian exhibit, there is a model of a small printing plant operated in the days of the cear. The plant was located in a hidden part of a cellar under a private house. The prest printed things against the cear, but the police did not know where it was Strangely enough it was hardly '00 yards from a prison!

CONTRACT BIDDING.

West's lead would be the Queen of Spades; South would win and lead the Ling and Queen of Diamonds from Dummy and noting whether both adversaties follow. When they do, two Diamond entries are assured in Dummy and Small Slam becomes easy. To tricks a follow of Diamonds, overtaking in Dummy with the Ace; and to trick to the Jack of Diamonds, overtaking in Dummy with the Ace; and to trick to the Jack of Clubs from Dummy. Dummy with his Ace; and to trick to the Jack of Clubs from Dummy. Dummy with his Ace; and to trick to the Jack of Clubs from Dummy. Dummy with his Ace; and to trick to the Jack of Clubs from Dummy. Dummy with his Ace; and to trick as an entry, is sure to make two Club tricks, and South can discard his three losing cards, so that the adversaries make only the Queen of Clubs, and Declarer gets his slam. If North had not have been made, unless the Queen of Clubs had fallen on the second Club trick.

To the least vital knowledge of

Dars Carpenter and Root report some studies made on a college professor who has had diabetes for nearly twelve years that he knows of. During a part of this time he has used dried Jerusalem artichokes as a source of carbohydrates. He dries them in season so as to have a year-round supply. At times he eats as many dried artichokes as a represent about two pounds of the fresh product. Under most circumstances he gets about 95 per cent of his arrbinyfares in the form of Jerusalem artichokes.

Other foods fairly rich in carbohydrates, of which he takes moderate quantities, are bran and Irish moss. The remainder of his diet is made up of foods that contain fats, proteins, minerals, vitamina and water, and foods that are moderately bulky.

#### To Keep Skin Radiantly Fresh

Cleanse it of powder. and rouge this special way, embodying palm and olive oils

MAKE-UP enhances beauty. It does not create beauty.

Beneath the artful touch of rouge, the smoothly dusted powder, must lie a naturally lovely skin. To keep that skin lovely, always remove make-up according to this universally recommended rule. Every night, before going to bed, massage your face and throat with a creamy lather of Palmolive Soap. Use your two hands. The palm and olive oils, delicately blended in the rich lather, act as a lubricant to the fine texture of the skin. They reach the true skin, that important and constantly renewed secondary layer. They penetrate tiny pores that are otherwise apt to clog with dust, makup, oil secretions. They prevent blackheads and skin afflictions.

After the soap massage, rinse with warm water graduated to cold. Dry with a soft towel by patting, not rubbing. Then (and then only) are you ready for

Who would not protect a price-less complexion thus easily, when Palmolive Soap is obtainable at only 10c a cake everywhere? Col-gate-Palmolive-Peet Co., Chicago, Ill.

### G. T. WISE, AVIATOR DURING WAR, TAKEN IN BAD-CHECK CASE

Member of Prominent City Family Held on Charge Pending Since March.

RELEASED WHEN BOND OF \$300 IS FURNISHED

Caused Sensation in 1923 by Eloping With Welsh Girl; Marriage Annulled.

George T. Wise, 36 years old, World War aviator and a member of a prominent local family, yesterday was arrested and charged with passing a worthless check for \$12. He was arrested at his home, 4700 Connecticut

rested at his home, 4700 Connecticut avenue northwest.
Detectives say Wise admitted giving the check to Julian H. Evans, of 1794 Columbia road northwest, on March 10. Wise told them he intended to make the check good. The warrant upon which Wise was arrested was issued on March 16. He was released on \$300 bond.

Brother in Killing Case.

Wise is a brother of Spencer Wise, who recently was fined \$300 on a homi-cide charge in Martinsburg, W. Va., where he was accused of killing a man during a fist fight following a dice

George Wise was a lieutenant in the George Wise was a lieutenant in the Army Air Service during the World War, serving with distinction during a number of engagements. His plane was shot down in August, 1918, and fell behind German lines where he was made prisoner and held until a month after the armistice was signed. In September of 1923, Wise caused a sensation when he eloped after an 11 hour courtship with Miss Catherine Radcliffe, daughter of Daniel Radcliffe, of Cardiff, Wales, a millionaire shipper.

Marriage Is Annulled.

The couple were married in Baltimore, but upon their return to this city the bride, who had been introduced to society by Mrs. J. K. Robison, wife of Rear Admiral Robison, was sent to Warrenton, Va., by relatives, while her father, opposed to the match, came to this country seeking an annulment.

In marrying Wise, Miss Radcliffe broke her engagement to Lleut. Julian Browne, of the Marine Corps. Radcliffe was said to have approved that betrothal. Wise, in December of the same year, sailed for Europe without his bride. Annulment of the marriage followed.
